Mr. Bricker

STAT It is much too early for the DCI to make a commitment to speak at this conference next April. The Director has been invited during the past three years to address this group by Brig. Gen. Donald Armstrong, USA Ret. and Washington representative. They are very anxious to have a CIA connection. They have been in touch with Mr. Dulles and Gen. C. Bell.

 Recommend that the Director again thank them for this invitation to speak but finds it much too early to make a commitment.
